KARRATHA & DISTRICTS CHAMBER OF COMMERCE & INDUSTRY
PRESS RELEASE | FOR IMMEDIATE RELEASE

APA Group Strengthens Its Commitment to the Pilbara Through KDCCI Diamond Sponsorship

The Karratha & Districts Chamber of Commerce & Industry (KDCCI) is pleased to welcome APA Group as its newest Diamond Sponsor, reflecting a shared commitment to strengthening connections between major industry and the local business community.

As one of KDCCI's premier sponsorship tiers, Diamond Sponsorship supports the Chamber's work in advocacy, business development, networking and events, while providing organisations with opportunities to engage directly with local businesses and contribute to the region's economic development.

APA Group's Diamond Sponsorship reflects its commitment to strengthening regional partnerships as it progresses major electricity transmission projects across the Pilbara, including the Hamersley Range Corridor and the Burrup (Murujuga) Corridor. These projects are expected to play an important role in supporting the region's future energy needs while creating opportunities for local businesses to participate in project delivery and ongoing supply chains.

During recent discussions, KDCCI and APA identified local procurement and Indigenous procurement as shared priorities. Both organisations discussed opportunities to better connect engineering, procurement and construction (EPC) contractors with local suppliers, including Indigenous businesses, and explore initiatives such as future Meet the Buyer sessions to improve awareness of upcoming work and procurement pathways.

KDCCI CEO Sarah Whelan welcomed APA Group to the Chamber.

"We're delighted to welcome APA Group as a Diamond Sponsor. Strong partnerships between industry and the local business community are essential to ensuring regional businesses have the opportunity to participate in major projects.

Our discussions have already identified practical opportunities to strengthen local engagement, and we look forward to working together to help local businesses better understand upcoming opportunities and build valuable connections across the region"

As part of its Diamond Sponsorship, APA Group will participate in a range of KDCCI initiatives throughout the year, including business events, networking opportunities and industry briefings, providing further opportunities to engage with local businesses and contribute to conversations about the future of the Pilbara.

KDCCI looks forward to working alongside APA Group to strengthen collaboration across the region, support greater local business participation, and deliver initiatives that create lasting value for businesses and the wider Pilbara community.

About Karratha & Districts Chamber of Commerce & Industry:

The KDCCI was established to deliver a unique range of services and representation to the Karratha business community. Managed by a diverse board of active local businesspeople, who meet once a month to represent our membership base and run by a team of four dedicated and experienced business specialists, we provide services to all sizes of business and help to connect our 400+ strong member-base, which includes: multi-national mining and resource companies, government agencies, community service organisations and small to medium-sized enterprise. We are a part of the Chamber of Commerce and Industry of Western Australia, and a founding member of the Regional Chamber of Commerce and Industry of Western Australia, where regional chambers from across the state work together and share information and resources to build a stronger business network in regional WA.
